

POPCORNERS®

THE NEW SHAPE OF POPCORN®

Dear Store Manager,

Your store is awesome and that's why I choose to do my regular grocery shopping here. The only thing that could make it even more awesome is if it was my go-to destination to purchase PopCorners – the new shape of popcorn.

PopCorners combine the wholesome goodness of traditional popcorn with the snap and crunch of a chip. They are gluten free and use all-natural ingredients. Plus, they eliminate all the messy kernels that end up on the ground or stuck in your teeth. The six great flavors of PopCorners have been flying off the shelves of grocery stores across the nation and have become one of the most requested snack items aboard JetBlue flights. They're also taking on popcorn on its home turf – the movies! That's right; PopCorners are now popping up in all AMC Theatres.

So isn't it time your store joined the party? Please reach out to the PopCorners People so you can start offering their delicious products. It will make your loyal customers like me even happier!

Sincerely,

To get popping, please contact us at popcornerspeople@popcorners.com
